My Revolut app keeps crashing when I try to perform certain actions on it. I am unable to fix it, been trying for past few hours. Willing to pay a small reward if someone is able to help me fix it.

Is it an official app from play store or is it a modded apk?

Not really an expert when it comes to APKs, but this is what it says on the APK page:

This APK

com.revolut.revolut_8.33-803300716_minAPI23(arm64-v8a,armeabi-v7a)(nodpi)_apkmirror.com.apk is signed by Revolut Ltd and upgrades your existing app.

Revolut is the name of the app you're looking for correct? Which phone do you use so I can make sure to get the right one for you.
