Private Crypts | 1000% Bypass Windows Defender | FUD Scantime & Runtime

Private Stub coded of 10 times crypts process
contain encrypted malicious code to disable windows defender
real-time protection and modify defender registry
which make our crypts can work with any RAT or Miner
even if the victim update windows defender or scan it won't work anymore
so your Stub is safe

Believe me, I've tried a lot of RAT, There is no one better than one it depends on your use
As for the encryption, You will find many untruthful Crypter will tell you it bypass

the truth is it depends on your rat/miner if it can be encrypted or not
but with our technique and method of destroying and killing windows defenders will make your
encrypted stub 100% bypass

We Don't offer a vouch demo version or any vouch copy its handmade Crypt with lots of work

DON'T USE IT IN YOUR MAIN PC USE IS IN VM FOR TESTING, WHY? IT WILL KILL YOUR WD

[contract=uid]Start Contract[/contract]

List of Compatible Applications

- BitRAT
- VenomRAT
- AsyncRAT
- WARZONE RAT
- Pure Miner
- Future Miner
- Rogue Miner
- Atom Logger
- Lime RAT
- DC RAT
- Quasar
- Mass Logger
- Orion Keylogger
- Falcon Keylogger

- Babylon RAT
- DarkComet
- njRAT
- And Many other More...

Spreading Method

Be creative and artistic and Spread it with hack games forums, youtube, emails, programs, Javs games, exam solutions, seed etc

If you want to get bots without any effort, then use [ZELOS botshop](#) or any botshop in [Botnets, IRC Bots, and Zombies](#)

This gentleman xVulnerable provides a wonderful [PRIVATE SPREADING Method!](#)

Is this native or .net crypter, i would take a vouch copy and leave a review if you have come copies. And also a buyer, if it goes as planned.

Thanks

asdabi31 - December 9, 2021, 3:35 am

Didn't send me a test copy stay away it's dangerous

how come? you didn't deal or contract me, And the weird thing is you have only 1 post in HF And it's only on my Thread

myxhacka - December 9, 2021, 6:15 am

I left you a PM. check
Thanks

LeadPal - December 9, 2021, 10:26 am

You have a thread asking how to bypass WD with a rat and then suddenly you make a thread with 10 years encryption experience... Bruh.

1000% bypass ?! How is this 900% better than 100%

Please deal with caution... Clickbait with false statements.

Call Me Shelter - December 9, 2021, 3:23 pm

intressting, do you have vouch copy ? I could make a good review

myxhacka - December 10, 2021, 12:05 am

I don't trust this guy, i saw Him begging RAZ for a crypt and now He is making a thread that He does something RAZ does, handmade crypt but now his is 3 times higher price than RAZ, is He reselling or what? man is breaking TOS.

Stay away
