Thread: [*GUARANTEED* PS5 for RETAIL - EASY \\$250+ PROFIT - **NO BS, GET ONE TOMORROW!**](#)

znc - December 13, 2021, 9:38 pm

PlayStation Direct Accounts with Exclusive Restock Access!
\$35 per - bulk discounts!
Easy \$200+ profit if resold!

These are for December 15th at exactly 2 PM EASTERN.
I previously sold December 14th accounts on this thread.

This almost guarantees you will get a PlayStation 5 console (digital or disk) at retail directly for PlayStation.

If you do not, I will refund you. However, there are terms to this; read the bottom of the thread!

How it works:

Spoiler [\(Click to View\)](#)

- I send you the login information to the account. I also send you a queue link.
- You login to the account any time before the restock (preferably a lot of time before in case you need a verification code)
- You go to the link I send you (while logged in to the correct account) 10-15 minutes before restock
- You'll have exclusive access to a very large restock where a huge majority of people with access actually get a PS5!
- I include more detailed steps and live help!

Proof of success:

Spoiler [\(Click to View\)](#)

I can provide more proof upon request.

Note: The PS5 is limited to one per address. However, I have many methods to avoid this (but they require access to certain things, so some people may not qualify). If you have not purchased from PS Direct before, you can 100% get 1! If you have (or want to get multiple), contact me and I will explain/we'll figure out if you can!

Once again, THERE ARE METHODS TO GET MULTIPLE! I can help you!

Refund Guarantee (MUST READ!):

Spoiler [\(Click to View\)](#)

For my safety, I require that you provide a recording of the entire process if you fail to purchase and want a refund. Only a few out of many accounts that I've sold have had this issue - sometimes, it is because of very, very bad luck; you can get placed very, very late in the queue and they can sell out (yes, there is still a queue; there is enough stock to let almost everyone in the queue purchase, though. Only people with certain accounts have access to this restock). If this happens to you (once again, VERY rare) and you have proof you did everything right, I will refund you. No questions asked.

Another way this can fail is if you make a mistake, such as:

- You buy 3 accounts. You login to account 1, but you go to the link of account 3. This will NOT work.
- You enter queue after it has opened. You will be placed at the end and most likely not get a console.

In scenarios like these, I will not refund you!

Edit:

Payment Methods: Zelle, Crypto, Cash App (others possible upon request)
