Good evening guys. I received a Vouch copy from OP and here is my Honest Review.

OP setup my store from scratch. I only had to pay for domain and hosting which was very cheap. He setup the store on Shopify with his custom theme and added products.

He have me insights on how to add products and also helped me with setting up FB ads. The ads part is still in progress.

All i can say is, OP knows what he is doing.

He was able to setup the store in record time and was very helpful throughout. I'm hoping to see some sales soon once the ads get placed.

I would highly suggest everyone to get this as it is a steal for this price.

Good luck with Sales.

Regards, Hell.

Hey there,

I have a couple of questions as I don't know anything about Shopify.

- How well does this work in Canada compared to the US?
- What kind of work/time does it require to get some steady profit?

Thanks A lot.

Posting to return later... do your the research and pick 10 unsaturated products based on niche we give you? Or just randomly picked from a list of unpopulated niches?
