Facts are not relative no matter how hard you want to argue it.

That's hypothetical, therefore only the person who wrote the equation will understand it and cannot be solved by anyone else. Not enough data entry/ not defined. None of us can change your mind without uttering complete nonsense. You do you.

No it's not Drugs, It's only figments of his own imagination.
Everyone knows $1+1=3$.
it don't take a rocket scientist to know this.

I love you forever @op, you're the boss

Rahul007rhp - December 18, 2021, 12:32 am

If no one can surely i can do with the help of hypnosis . $1+1$ would be 450 for you. Also we won't argue on it. Easy !

Wish i can win though lmao.

bevc - December 18, 2021, 12:57 am

I'll prove to you that $1 + 1 = 25$ if you give me 45 BTC, otherwise, no deal.

Really? I don't get it.

A10247 - December 18, 2021, 11:55 am

No, you're wrong. $1+1 = 1+1$.

Chedster - December 18, 2021, 6:02 pm

I can turn that \$25 in BTC and flip it into \$2 for you real quick.

SIM-2502833 - December 18, 2021, 6:42 pm

In that case, you shouldn't mind giving me 45 dollars BTC since its just two small chunks of the 25 dollar BTC you were offering.
