I mean I don't mean to bash your business or anything and I wish you the best of luck but why would anyone pay \$500 USD crypto for a service you can get yourself for \$258 CAD (\$199 USD) just by using the actual Cameo site: <https://www.cameo.com/islandboys?qid=1640140534>

I'm sorry guys. I was not aware they offer their service there. There is a prize in 1 gambling website that I use that can get you a video message from them so I was thinking this is somewhat private and I wanted to try and earn some bucks. My bad for not checking :(
