Thread: [Pandora Crypter | FUD Scan & Runtime | Strong Persistence | .NET & Native | {0/26}](#)

**0x1sql** - December 26, 2021, 5:14 am

Features 2 times a day refud

Can Guaranty to Give a long FUD time of 2 to 4 Days from the same stub which no other crypter on HF does Very Advance Persistence & Anti-Botkill features which makes it near to impossible to remove Installed file

Each user gets their own private stub Elevate Process Access Right - Protect process from being killed

Clear Zone Identifier - Prevent run popup when downloaded from internet Anti Debugger/Emulator - Prevent debugging/emulation to work

Compression - output size is reduced from the original size Unicode - Support any system language

Anti Memory Scanner - Prevent memory detection for .net file Private stub - Gives Long FUD time upto 4 weeks

Silent execution - Does not trigger UAC or any annoying Black window Persistence - Guards the injection process and startup Key

Runtime FUD - Bypass 100% AV's Runtime/Scantime

Product looks good, but I suggest you release a runtime scan. Any vouch copies available?

**MeW11** - December 26, 2021, 10:33 am

Glws! I hope this product rains supreme

(Dec 26, 2021 04:41 PM)Incog Wrote: [\[CITE\]](#) Off topic but is that the macOS version of telegram or did you somehow setup a theme? I've never seen it before so figured asking may help

OP, posting runtime + scantime results, for a crypter is a near must, if not how else will people know it even works or is legit?

I also reccomend people use a middle man on newer sellers, unrelated to the user I quoted accusations, just as a general practise.

you can change the appearance of the telegram theme to anything you want but i prefer this.,

even if he posted scan and runtime of this crypter i will still stand to proof is the same person as henrich the serial ripper owner of vulcan crypter i wish i never deleted the vulcan crypter you will see the gui which is same as the vulcan just the font that was change he knw i busted him when we had the chat on telegram he immediately delete our convo when i sent him the screenshot he reply and after some few chat he blocked me .....

TBH even if your statement is true, the information you have presented is far from concrete, all you've shown is you harassing this seller tbh.

If you have enough evidence to support your statements, make a community alert, if not, apologies but you cant exactly do alot.

wow harass ? Okay i wont say anything anymore if anyone get ripped by this guy u surely going to apologize to me and public on this platform i dont do try an error on pointing out ripper from

VULCAN CRYPTER TO ACORDX NOW THIS watch out i will be on here reading comment

And I wont apologise? Everything you have stated isnt backed, I'm making an assumption based off what I see, if you take a guess and are correct, you still guessed. That's being lucky, not factually correct

Regardless this is being taken off topic, I've given my recommendation to you and OP, I have no need to reply now.

Am on here man we shall see have a good day

I don't know this guy, it bothers me, is it illegal for me to block him?

I have no idea about the person he is talking about, there is no other situation than that he was scammed by someone else and harassed me under this topic. I demand action by the authorities.

**Lovesosa** - December 27, 2021, 2:52 am

Looks good any vouch copy or testers and with wich rat does this work?

**MeW11** - December 27, 2021, 6:53 am

The arguing in this thread makes me not want to purchase a trial

**0x1sql** - December 27, 2021, 6:08 pm

The user with the nickname CasePaste is attacking, as it can be seen, I neither know her nor have anything to do with her, so I blocked her because she was bothering me. I demand action staff

**SIM-4932765** - December 31, 2021, 11:32 pm

0x1sql I recommend you to give some vouches to well known people after the statements by CasePaste, otherwise people will doubt about your product vericity. Glws!

**jcole** - December 31, 2021, 11:35 pm

Looks like this thread has a lot of drama in it, and hope you get that all sorted out. Good luck with your sales on the crypter. Thread design looks simple, but effective.

THIS STUOID REBRANDED VULCAN SHOULD LET SOMEONE BUY A GOOD CRYPTER. HE KEEPS FLOODING THE MARKET WITH HIS FAKE SHITS. IT IS ANNOYING

**Allfather** - January 2, 2022, 7:46 am

"Pandora Crypter" it's really bad using my name on your product.
