Sounds pretty good but you should probably post this in the breakfast megathread.

Nice. Though I am a fan more of pancakes. Pancakes & sausage is the GOAT.

Lol smartass xD

I don't really eat breakfast everyday but when I do it's just a bowl of cereal :s

I live by myself so when I get groceries it's hard to eat them all which is why I keep it more basic, plus breakfast is one meal I don't like to cook just cuz it's so damn early in the morning... That'll change soon, would be nice to live with someone respectful and chill.

how was your inevitable trip to the bathroom

Sounds good, but cold chocolate milk seems too cool for the snowy weather here.. anyway this reminds me of chicken and waffles...
