Thread: [Anyone know how to hack an android by sending a link?](#)

twitter4u - December 27, 2021, 4:53 am

Anyone know how to hack an android by sending a link?need this soon

Maadcat - December 27, 2021, 2:58 pm

Be more specific, what is "hack" for you ? :)

twitter4u - December 27, 2021, 6:41 pm

I mean to get access to read there calls history/SMS logs/Whatsapp messages etc

Nanja - December 27, 2021, 10:12 pm

Maybe you can do this with remote administration tool? Need to install though I think, not just send link.

twitter4u - December 28, 2021, 9:40 am

Hmmm.is there any way that when you click link virus get downloaded and run silently

Bluewonderepson - December 28, 2021, 2:54 pm

There probably is but that would be way out of anyones budget if there would be something like that
- you should try and read up on social engineering as there are many ways to make your victim download and install an app willfully using certain methods that best suits them.

Contact NSO group and ask for their pegasus package.

Marcus Lauren - January 15, 2022, 6:59 pm

Never heard of such before. You should try looking into making them install apks instead. Btw thanks for the post , I need to go back to my android project and finish it
