Nate app (iOS Safari only). Legal method easiest \$90 dollars (in products) guys this is a method that requires the following:

iOS 14+

Bank account

At least a \$30 in the bank (or you won't be qualified but you only get charged 1 dollar per purchase.

Steps

Open an account, enter all legit information. Vpn orders won't go through.

Connect your account and you will get \$50 Nate cash, you can spend this on some websites not all, Best Buy, Walmart, blade city, etc (not eBay or Amazon).

After a purchase your Nate cash will be charged and you are qualified for \$20 two times.

The app will show you how to purchase with Nate cash.

Keep in mind shipping will be charged to you. Look for products that are free shipping.

If you want something that's 80 ish dollars, buy a mouse pad or something very cheap on Best Buy (insignia has like 99% free shipping), you will get your 50+20+20-5-5 so if you do this right you can go head and get something for 80. But only some websites. I suggest Walmart and Best Buy but you can look for more. Cheers.
