You have to download Telegram and make account then you will be able to join to our channel where you can order ban service. We use Telegram because it's not as strict as Discord. If you don't like Telegram or just don't want to use it then you can message me directly on Hackforums for purchase.

Good luck with sales. Quick advice, fix your website cause it's really laggy and unclear

Ayena - January 14, 2022, 6:39 pm

OP is an absolute psycho! Be WARNED.

I tried to deal with him only on the recommendation of "Julius" because I was told by other trusted members here that they could not ban a specific Facebook account for me. I planned to deal with OP this weekend and told him that I would have him ban one account for me this weekend.

Tonight, he went into some drunken tirade on Telegram, because I refused to show him a picture of my hand to identify my skin color. He started calling me a bitch, sending me Hitler photos, and making threats to whitelist all my accounts and tell everyone to not deal with me. He said if I didn't show him my hand, he'd charge me \$200+ for any account I wanted to be banned.

After I blocked him, he started using multiple TG accounts to send me harassing messages, with

threats to notify the police. OP is unethical and deranged and I wouldn't trust him with a dead animal, let alone a single dollar. Save yourself the trouble and work with someone else.

Stanley - April 5, 2022, 2:53 pm

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Does the lower amount of followers affects the ban rate and chance from your IG banning experience?

well, no but sellers usually take advantage of high profile accounts in order to profit more lol

Oh that huh. I see fixed price and rates for most of the sellers anyways no matter how high quality the profile is.

The profiles I am about to bad are amateur or regular people anyways.

Once you get in contact with the seller he will ask how much followers and accordingly increase the price. Happened to me almost with all sellers.

Yes the service is active, we offer IG/FB/Snapchat bans for this moment. All information you can find on our Telegram channel which is t.me/AIBans. Timeframe for IG Bans is 5-15 mins for human, and 5min-12hours for non human accounts.

OP, doesn't accept MM. Deal with caution.

4425050403 - February 7, 2023, 10:35 pm

Vouch for OP! Ban was super quick and easy, and he even had a warranty period where he would re-ban if the person got unbanned for free. Dude's services are cheaper than Animal's and he's nice too

Edit: Also, OP was more than willing to accept a trusted MM (Cooligan), but they decided to go first in the end. Definitely gonna use their services again

Designation - February 17, 2023, 11:50 am

Vouch. Job completed quickly and fast responses. Recommend working with this seller.

Ninjalad - September 28, 2023, 6:12 am

VOUCH I tried a few other sellers to ban IG account but they were useless! Look at my history here on HF, I been looking for someone to do this and peeps on here telling me it can't be done. Well it definitely can be coz This guy gave me fair price and banned account in one day. He's definitely legit. I'm hoping account stays banned. I will use him again to ban other accounts.
