Thread: [ANDROID AUTOMATION STUDIO / AUTOMATE ANY ANDROID APPLICATION - 45\\$](#)

AAStudio - January 3, 2022, 12:58 pm

Android Automation Studio

Android Automation Studio is created based on huge demand for automating android tasks. Why paying monthly fees for softwares that can only automate one application. Get your version of Android Automation Studio and automate them all for the price of one!

What is special about Android Autmation Studio is that is very easy to setup, you can load and save configuration to use them later on. We are open for new ideas that we can implement in the program, custom modifications are also available.

You can click, swipe, send_keys, wait between actions and application will randomly add + - 1-2 value to prevent other applications from detecting automation. You can post a single text, or you can use custom .txt file and software will go through it and use text from it.

???CLICK ON WORDS ABOVE TO WATCH VIDEO DEMONSTRATIONS ???

LIFETIME LICENSE

CRYPTO : 65\$

PAYPAL 75\$

[Video: <https://www.youtube.com/watch?v=EUeT9Ayd79g>]

Terms:

1# Support will be given by chronological order.

2# Instructions will be given in written form.

3# I can setup the software on your machine instead of you for additional 25\$.
My time costs same as yours that is why is reasonable to charge additionally.

4# Custom software changes are acceptable for additional cost, not rewriting the whole program.
If i like your idea regarding the software and i do it cheap or free of cost, i have the right to make those changes available to others.

5# I have in plan to go from lifetime to monthly licensing very soon.

Those who purchase lifetime licenses now will still have them when i transfer to monthly licensing

Willing to give a lifetime license in exchange for a review.

MSteel - January 4, 2022, 11:50 am

Interested in giving this a try. Any vouch copies?

AAStudio - January 4, 2022, 11:57 am

For sure! Send me a private message and lets do it.

335i - January 4, 2022, 11:09 pm

Can't you achieve the same results using ADB with a .bat file?

I've made a few scripts with this method myself, but if I'm correct it seems like you're just providing a simplified GUI to create them?

AAStudio - January 4, 2022, 11:14 pm

I would say that is more stable/reliable this way. There are like 3,4 methods to automate android apps.. I made this simple to use for people without coding knowledge after my friend bought 35\$/month for a snapchat bot which is trash, we could bearly use it to test snapchat method..

335i - January 4, 2022, 11:14 pm

Seems like it could be a good alternative for people less technically inclined. GLWS!

I don't currently have a use for it, but you should add functionality to input text from a .txt file.

An example for ADB code is

```
for /F "tokens=*" %%A in (words.txt) do (  
action  
)
```

AAStudio - January 4, 2022, 11:33 pm

An example for ADB code is

```
for /F "tokens=*" %%A in (words.txt) do (  
action  
)  
Fair enough.
```

Yes there is an option to do just that.

Take a look at this video.. Getting list of names from snapchat to be added.

Ah, nice.

Well good luck with it, like I said I dont have a use for it myself as I already have ADB scripts for what I need but hope it works out well for you.

Zimhoni - January 5, 2022, 12:04 am

Hey, I would like to review this script if that's possible.
Started a convo with a few questions :)

gloccforty - January 5, 2022, 1:53 am

I am also interested please and thanks

AAStudio - January 5, 2022, 2:13 am

MSteel - January 5, 2022, 10:32 am

Tried and tested bot for several apps. Seamless functionality and very easy to use for someone who is a novice at tools such as these. OP also super helpful in helping me setup with quick & clear instructions. This will work great for those ewhoring and such.

AAStudio - January 5, 2022, 11:12 pm

Thank you ? Waiting for other reviews

Zimhoni - January 6, 2022, 3:21 am

I got my hands on OP's software and for a newbie it wasn't so hard to setup and use it, he also made sure to include a video from A-Z on how to setup everything correctly and he's been very responsive overall aswell :)

If you are looking to ease yourself by automating some apps without too much complication then that's the right software for it (so far I tested this with snapchat and [BRAND NAME REMOVED] and it's working as it should be, got some nice features such as "swiping" for [BRAND NAME REMOVED] usage)

For the price it's well worth it if you know what you are getting into, GLWS!

UPDATE 1/7/2022

[Video: https://www.youtube.com/watch?v=EUeT9Ayd79g&ab_channel=TodBajovski]

I wanted to give you a quick update what is added to the program in this new update. You can now check if something is blocking you from performing an action and based on that you can choose how to deal with it.. If annoying popup windows were blocking you from automating [BRAND NAME REMOVED], that is now gone forever. Check the video i have created as demonstration with voice over. ?

Sticky Bot - January 7, 2022, 11:04 am

Hi, I'm Sticky Bot. The owner of this thread has purchased a Paid Sticky. Hack Forums does not get involved in deals or deal disputes. We do not vouch for the product or the service offered by members. Please note that all deals are at your own risk. The sticky will expire on 01-21-2022. If

you or a loved one are interested in buying a sticky please visit this page: [Buy Sticky](#). For more information about Paid Stickies you can read our [Help Doc](#).

AAStudio - January 8, 2022, 1:18 am
Update 1/8/22

Software has been updated and some minor bugs have been fixed. Working flawlessly.
Grab your lifetime license before we transfer to monthly licensing system.

Use of the software is huge, you could mass tag people on tiktok, twitter, facebook.
Swipe and send messages after someone matches you on [BRAND NAME REMOVED], badoo
Spam kik messaging platform, viber, whatsapp..
Spam connected2.me or any other android application that is not available on the web.
Boost snapchat score with the program and sell accounts on forums.

Sir Edward Teach - January 8, 2022, 12:23 pm
Hi guys,

so first of all i would like to recommend this product and seller. Price for lifetime is really good for potencional of this program. Currently its not mention to be multi threaded but devs is friendly and will look more into it, so this program will be in future much better for botting purpose like streams on music platforms or much more. Right know it is good when u want to automate some kind of task on one android device , but works as charm!

AAStudio - January 8, 2022, 4:37 pm

Thank you very much. Multithreading will be added if there is enough interest in the software. For now you are not thread locked, meaning, you can run 5 instances of the software and automate 5 different devices. Thank you for your honest review! ?

DaGda - January 8, 2022, 7:37 pm

I am wondering if this tool has support for proxies? Like can I use a different proxy after each successful action as example.

AAStudio - January 9, 2022, 3:30 am

Hm, i never had a plan of doing something like that because you can setup the proxy through your android and/or use rotating proxies which would rotate proxies with every requests. ?

VilauS - January 9, 2022, 6:26 am

Tested the app on an Adult app. It worked perfectly, and I enjoyed the human like interaction on the app.
Great software

AAStudio - January 9, 2022, 2:57 pm

Great software

Thank you for your review! Online and taking sales. Store is up, so once you start a contract you get the store link and everything is auto from there once you purchase. ?

gloccforty - January 11, 2022, 4:26 pm

guess he was scammin all along lol
