Trappy - January 11, 2022, 9:46 pm

Description

We are a group of like-minded individuals working together to achieve a common goal. Although our group is new here on HF, our members are not. We are among the best advertisers and monetizers in HackForums history. However, this group is not only focused on making money or becoming a tycoon. We put a particular focus on enhancing the community, hosting giveaways, helping others, and bringing quality content to the forum.

Userbar & Stars

If you are interested in applying to join our group, fill out the application below and post it here. Do not send it to me in a private message unless it includes information you don't want public.

If you post a bare bones response, lacking effort, don't expect to be invited. In our group, we are more interested in the 9 month old member with low profile stats than the 5 year member with high b-ratings and popularity. Effort is expected, and ambition is required.

Thank you for this opportunity! I haven't been able to join any groups yet on HF besides L33T, so this would be a great way for me to push forward, meet new people & share my knowledge with like-minded people!

Age: 26

Why do you want to join Revenge?: I would like the ability to meet new people in a more interpersonal & laid-back environment, I am a very big fan of the userbar design and think this group could be a perfect home for me on HF.

What do you have to contribute to the group?: Knowledge, Humour, Honesty & Friendship. I am very adamant about being the best version of myself and also helping to bring others up in feeling the same way, understanding that we as humans are amazing and independent beings, capable of doing so much. I believe I can help remind those who need that extra push of motivation to get things done.

What are your skills?: I excel in psychological marketing tactics & social media growth/management, Crypto + NFT Enthusiast aiming to help members earn as much money as possible!

Who is someone you admire on HF?: Have to be honest I don't really know anyone here too well to admire them, but someone I admire endlessly in this real world is Elon Musk. A true pioneer of our age, way ahead of these times and is setting out to achieve what most thought impossible.

How many hours a day do you spend online?: On average I'd spend between 9-14 hours online.

Rafaelx22 - January 12, 2022, 2:42 pm

Greetings, Rafael here. Appreciate the opportunity.

Age: I am currently 20.

Why do you want to join Revenge?: Looking for new ways to monetize, step up, and improve who I

am now.

What are your skills?: In my 2cd year as a Mechanical Engineer, yes I am very good at math. I am fluent in English and Spanish, my Portuguese isn't bad at all either. Have spent a fair amount of time in the past years messing around with my own projects in vb.net and C. Speaking on that I plan to release a C# RAT in the near coming future.

Who is someone you admire on HF?: Dyne is fine asf.

How many hours a day do you spend online?: Tricky question. I usually go to the gym for an hour or so a day. On top of that I go to class. On weekends I like to spend time with friends. However, when there is a task at hand I will get it done without any question. But if I had to put an estimate to how much time I spend online; more recently I've been active on Hf working on my own personal projects. So maybe 5 hours a day. This can fluctuate a lot, if there is something to get done it can greatly change this.

Link HF contributions or marketplace activity: I do spend sometime giving my input and advice to new users. Currently I have a botshop on my profile.

Why do you want to join Revenge?:

I would like to join the group as I think that I can help contribute to the group in many ways in the near future. I believe I am also on your list of "trustworthy community members" but that is completely my belief.

What do you have to contribute to the group?:

I am an HF writer and have been a leader of many different groups, I am great at anything around and in groups and have done a lot of work around them all. So I can easily help with the group in a few different ways. This can be discussed in the near future if you would like to.

What are your skills?:

I am a Lua coder, level designer, and a mad man with writing threads/documents. People seem to like what I write for some reason, I honestly don't know why.

Who is someone you admire on HF?:

There are a few people that I can mention. The list would be a bit too long sadly. I guess I should mention a few. Bromden, Zeus, Trappy, Xerotic, James, Nuworld, Hydra, and who can not add Omni as a mention.

How many hours a day do you spend online?:

I would say I spend about an hour or two on the site a day, I am always watching/lurking to keep up to date with everything on the site to make sure I can keep everything within the HF news correct and up to date.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page

and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
