Thread: [Solana NFT Signals \[FREE\]](#)

carcossa - January 16, 2022, 6:13 pm

Hello,

I have been making successful calls to friends for some time now and just recently we've made a Discord to chill in while doing NFT's. You can check my history of calls in the Discord once you join, today I had a callout from 2 SOL to 17 SOL (\$2,250 PROFIT per NFT).

This will eventually grow to a very big brand and I would like to start with my friends at HackForums first as this is a community I feel comfortable with as its only friends currently :).

My call-outs generally come with RISK indicators as well and I will do at least 5+ calls a week.

- 5+ Free Signals per Week
- Phantom set-up & use guides
- Access to whitelists

Unlimited spots are available for now, I assume I will be taking around 250+ people for now before extending out further.

(Jan 17, 2022 08:53 PM)carcossa Wrote: [\[CITE\]](#) Everybody up to this post has been invited.

We've had another 10X play today on our Discord, insane.

This was a 0.55 SOL mint.

Flaxpicker - January 16, 2022, 8:10 pm

Been in this group for a week. The calls are on point

Bay - January 16, 2022, 8:17 pm

I have been making successful calls to friends for some time now and just recently we've made a Discord to chill in while doing NFT's. You can check my history of calls in the Discord once you join, today I had a callout from 2 SOL to 17 SOL (\$2,250 PROFIT per NFT).

This will eventually grow to a very big brand and I would like to start with my friends at HackForums first as this is a community I feel comfortable with as its only friends currently :).

My call-outs generally come with RISK indicators as well and I will do at least 5+ calls a week.
