FAQ

Q. Are there any investments required?

A. Yes, there is, since you will be reselling real HQ, in-demand products you need to buy those. You can start small, and chances of failure are low, 100 dollars should be enough.

Q. Can it get saturated?

A. Nope, I believe this niche is impossible to saturate. There will always be demand, high demand. Not a lot of people are catering to this niche at the moment, so more money for us.

Q. What is the time needed to execute the method and see money?

A. Setting up can take a bit of research, in general you could pull the trigger within a few minutes and start earning right-away. However, that is not recommended, this is not a get rich quick type of

thing. You will be building a scalable business.

Q. Can this be done absolutely anywhere in the world?

A. This method will work anywhere in the world.

Q. How much money can be made?

A. Technically unlimited amount, I think it would be realistic to aim for something like 500 a week. You can easily scale this when you get more knowledge about the market.

Q. How many pages is the eBook?

A. The eBook is 17 pages long of pure knowledge and valuable information.

Q. How long does it take after purchasing to receive the eBook?

A. After purchase you'll be able to instantly download the eBook, it will also be sent to your e-mail.

Q. Does this have anything to do with dropshipping, Shopify or anything related?

A. Nope, it does NOT, you won't even need your own site!

I've been looking at a lot of ebook threads and I've narrowed my search down to this one to purchase. However, I'd like some REAL information about it, first. This is an old thread so I'd like to know how relevant it is today and how it can't be saturated after all these purchase.

Please don't just tell me what I want to hear "it can't be saturated, it works forever." I would really appreciate some details into this. You have a sale with me so please provide info via DM or Discord; Kills#6071

Thanks in advance!

Hey there,

If you're still looking for a vouch I'd be interested in reviewing

Not just looking to take a gander and move on with my day - I've purchased various e-books (in my earlier more naive days on this forum) and have relative good experience when it comes to reading and analyzing information to see if there's actual merit.

Note: The review I would leave would be my honest opinion, and would come in parts - An initial impression, a review left after making an attempt (provided it doesn't look to be a waste of money), and a final review of earning.

Lmk if you're interested!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
