Hi Everyone,

I'm looking to buy Forex, Binary Options, Insurance, Investment leads

There are a few requirements for the lists however if you have something different from the below then please get in touch anyway to discuss further:

- Only gulf countries, most specifically (Kuwait, Oman)
- No more than 3 months old
- Data must contain names, phone numbers, email .. any more info is a plus

There is no limit to the number of leads that I will purchase, obviously the better the quality of the leads the higher amount I will pay.

Ideally, we are looking for someone that can provide a constant feed of new leads for an ongoing relationship but one-off lists will also be ok.

Please send me a PM containing your offer, (Telegram) @BountyHunterftw
