Thread: [PS5/Collectibles/Sneakers Bot Rental](#)

Host - January 23, 2022, 8:40 pm

I'm renting out my bot \$70 a month. This is 4K worth bot that hits on stores such as Yeezys, footlocker, Target, etc. If you a OG cooker like myself then you know Kodai DOESNT MISS.

I been cooking off this bot for 2 years+. I have been able to get 5 PS5's and 9 Xbox's and plenty of limited stock Yeezys.

Will be opening up monthly slots for buyers to rent out.

This bot is worth it. Comes with video tutorial on how to use.

Man I'd love to get a PS5 for under \$900 CAD lol, it's crazy how hard it is to get one. I've been trying for over a month now.

I been getting a lot pms about this service and I have updated the main post. Please stop wasting my time when it comes to this bot.

The bot is currently being rented out for the next 30 days. Feel free to hit me up for rentals in advance.

It's 1 renter at a time?

I believe they allow you to purchase additional key but I think it's more than the original key and tbh I feel like \$70 a month is a fair price.

Not me but the bot club is pretty strict, most decent AIO's only allow 1 computer at a time.
