Thread: [\[2022\] MAKE \\$\\$\\$\\$ MONTHLY | START YOUR OWN GAMING BUSINESS TODAY | ACTUAL EARNINGS!!!!](#)

spiral - January 28, 2022, 6:11 pm

What's up guys, its time again to offer a fully profitable business model ready for you to implement and start earning straight away. I have been working on this for the past few years earning thousands consistently. If you have any questions or are interested in working with me please send me a message on Convo, or on Discord.

Ideal Requirements:

- You are 18 years or older.
- Have access to a globally used payment system to easily accept payments directly from customers (PayPal, cash app, stripe) but I also include a variety of websites and companies to work with that deal with the payment and will pay you out via Paypal, Bank Transfer, Wire Transfer, Skrill, Neteller etc.
- Have access to a semi decent computer something like a i5 and 750 ti will do it, doesn't need to be anything special, if this is not possible I do have an alternative way you can deploy but will increase your startup and monthly cost.
- Have access to a game console (XBOX/PS) will make things ALOT easier, this is one I would 100% recommend because one of my methods involves the console and has one of the highest returns out of any of the methods I use in this business.

Why buy from me?

- I actually use this myself and make consistent money through a variety of ways of monetising video games. My methods are unique, sure you could probably figure everything out yourself, like I did but the information I provide, as well as connections is very valuable information and will make the process very seamless, you will be able to get everything setup within a day or so and will have the ability to start earning straight away, depending on which ways of monetising the information I provide you decide to apply.
- I can provide proof of earnings through a variety of different sites and companies that I work with, to serious buyers.
- I will provide support whenever I am available to make the process as easy for you as possible, to regain the money spent on me + other required startup costs and earn future profits.
- Reason for selling - access to more capital to fund other projects, selling to a limited number of people so will not cause any saturation, market is massive (global and locally), and to have the ability to work with new people.
- The information and resources I provide you will allow you to establish multiple different ways to earn from video games, very easily. You will be able to get started with as low as \$0, but

investments can open the opportunity to earn more money, and make the process more streamlined.

Pricing:

1st Slot - \$200

2nd Slot - \$250

Potentially more to be added.

Why would I want to give a vouch copy to someone who has an open dispute for \$17? No thank you kind sir.

i am very interested, how much would it take to get the first payment? any aproximated (and realistic) earnings / month?

If you have most of the requirements above you can be setup within a day and easily get one sale. The minimum I would expect anyone to earn from this monthly is \$500. The more effort you put in, the more you can earn but with minimal effort \$500 is realistic and achievable.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
