Thread: [Can anyone help increase the security of my encryption algorithm](#)

SIM-5146464 - January 29, 2022, 10:12 am

I am just wondering if people could solve my encrypted message and could help me make it better.

Encrypted message: 11010001111, 11010001111, 11011001011, 10000001111, 1100011111, 11100101111, 11000111111, 11001010011, 11100011011, 1100011111, 11001010011, 11100011011, 1100011111, 11010100011, 11110010011, 1100011111, 11000000011, 11010110111, 10111011011, 11100000111, 11110010011, 11011011111, 11100101111, 11001010011, 11011001011, 11010110111, 1100011111, 10110110011, 11010001111, 11011001011, 11000101011, 11011001011, 11100000111, 11001010011, 11100101111, 11000111111, 11010100011, 10000110111, 100010111111, 11000000011

I believe we'll need a bit more background than that. For example: a sentence before and after the encryption.

SIM-5146464 - January 31, 2022, 3:19 am

Hi, so the encrypted message is what is displayed and the original message is : Hello, this is my encryption alogorithm.
