What is your favorite anime opening?

Mine is without a doubt the original case closed opening.

A lot of my favorite OP's are from Gundam, not gonna lie. Definitely hard to pick a favorite since I like so many of them.

I love a good soundtrack to my OP's. As a metal enjoyer, the new AoT opening is an absolute banger. [And it looks like others agree](#). SiM, the artist behind the OP, makes some great stuff.

Be warned, the OP contains massive spoilers.

100%

Really hard to say which one is an "all time" favorite. Things come and go and what I want to watch/listen to can change on a whim.

- Cowboy Bebop's jazz
- Space Dandy's and My Little Monster's pop
- Shingeki no Bahamut's metal

All are great. It goes beyond when the animation matches the backing music.

I've watched countless anime's over the years and I still listen to this now even if it's old

Fire force op 1 is a good one

Samurai Champloo is up there for me.

I also adore Serial Experiments Lain. It's probably my current favorite.

Samurai Champloo intro is nice, but the outro is perfect.
