Thread: [Exchanging ewhored AGC for Bitcoin](#)

bruhBruhh - January 31, 2022, 1:13 am

I'm a noob to ewhoring and this forum as well. I looked around but I didn't really find a straightforward answer to this.

Where can I exchange amazon gift card codes that I received from ewhoring? And I don't mean physical cards. I mean just codes that you get on your email.

Usually where I looked people only want physical cards with receipts.

I'd really appreciate if you guys could point me in the right direction. Thanks!

Hey ! check [Currency Exchange](#)

Also there is Paxful , but you will lose 30-40% of value

bruhBruhh - January 31, 2022, 2:53 am

Thanks for the advice. I checked out Paxful but it's either only Physical cards or i get like \$0.40 on \$1.

I'll check out the currency exchange tho.

Would it be better to actually create a new amazon account, become a seller, and purchase an item from yourself?

I'm not sure I understood what you're trying to say with this, but your best option is to exchange it to crypto in the CE section. You lose 25%-30% but it's still something.
