Thread: [Selling my RTX 3080 Pre Sale spot.](#)

**Creativo** - February 3, 2022, 6:03 am

So I registered for the waiting list a few months back to get my hands on a 3080 RTX for my custom PC that I was planning on building, Due to work issues I decided to buy a laptop instead, I just received an email saying Im now able to order the 3080.

Retail Price is 919\$ at Evga.com

Willing to sell it for \$1000 or best offer if this somehow turns into a bidding.

I will be buying this for you and shipping to whatever Address you give me, Must be US or Canada if you want it directly shipped from EVGA or if you live somewhere else I can order it to my house and ship it, You cover shipping fees.

I will not be going first under any circumstances.

MM Accepted.

Highest offer gets it.

Taking Crypto ONLY

I got 3 days left to place the order so if you are serious about this contact me.
