Thread: [Anybody else browse HF from their phone only?](#)

Ruggzee - February 3, 2022, 6:16 am

I personally am on mobile 99.99% of the time. Not a big computer guy. I have a couple MacBooks, but I rarely touch them. I put a computer in my office, but I just use it for work, I've never logged onto HF from it. I think I've logged into HF from a laptop...twice in 2+ years?

What about you?

Luffy_- - February 3, 2022, 6:18 am

Well it's 50/50 for me, sometimes i login from my phone and sometimes from my pc, it actually depends on what i'm doing !!

Yuno - February 3, 2022, 6:19 am

99% of the time I'm on a computer.

Eran - February 3, 2022, 6:22 am

Lately it's like 70% phone, 30% computer, because I'm working for Glovo delivering food for 8h+ daily so I'm on my phone when I have no orders.

Goku - February 3, 2022, 6:31 am

I browse HF strictly on my laptop. I used to only browse HF at home to prevent being linked to another account. But lately I don't mind logging when I'm at some friends or at work since they will probably never use this site

Ruggzee - February 3, 2022, 6:39 am

I always wonder if I'm missing anything just being on mobile.

Shaggy - February 3, 2022, 6:45 am

I only use mobile when I need to make a check in while outside of my house.

Vibe - February 3, 2022, 6:46 am

I am too my only laptop is hella old and was a cheap 250-300 one to start with so it's not really worth booting up to browser hackforums when Omni and the team have done such a great job on mobile compatibility. I've been using mobile almost exclusively for the last 3 years maybe 4

EDIT: Never on mobile
Damn what a setup

For me it's mostly Computer

What about you?

Yup I only do hf through my phone, cause I hang around here every now and then.

blackrose_x0x0 - February 3, 2022, 8:08 am

I use HF on desktop for the majority. Maybe 10% of my time here is spent on mobile.

Dripstur - February 3, 2022, 8:10 am

What about you?

Probably about the same 1.5 -2 years since I've used a computer to log in. Just prefer being on my phone I guess.

Hahahah

Are the fed on your ass brother?

That setup is so crazy and nice.

ailo - February 3, 2022, 8:15 am

I honestly think the HF mobile version is much better and optimized.

Spyware - February 3, 2022, 9:45 am

I dont think I have ever used HF on my mobile. I might be wrong but fairly sure.

the_bane - February 3, 2022, 9:47 am

i surely do use it on mobile, its good when im travelling to and from office ,super handy

Ruggzee - February 3, 2022, 10:28 am

Interesting. See, I've wondered if I miss anything being on mobile. Cool to know. I do like the set up.

Zero - February 3, 2022, 10:56 am

[mention=4227846] is the king of all mobile users. He's 100% mobile only.

Processor - February 3, 2022, 10:57 am

I am currently on a computer using hackforums.

Yuno - February 3, 2022, 11:33 am

My password is too complex lol I don't feel the need to retype it on my mobile

EMMEKTHEBEST - February 4, 2022, 3:27 am

99% of the time I'm on a computer.

Kify - February 4, 2022, 6:46 am

Used to only browse HF on my laptop, now I'm only on mobile.

hayesh - February 4, 2022, 11:07 am

ive actually never used hackforums on my phone

hackerm0m - February 4, 2022, 11:26 am

Mobile, I think I've gone on my computer twice to use it.

Yuno - February 4, 2022, 12:02 pm

Your to popular to be tied down with such silly things as a computer. ?

MeW11 - February 4, 2022, 9:49 pm

Normally I'm always on my phone, the laptop is for project purposes
