Thread: [FUD CRYPTING SERVICE \(Only 64-bit files\)](#)

Palac10 - February 3, 2022, 3:42 pm

64-Bit CRYPTING SERVICE

As you might have noticed, there aren't any 64-bit crypters on HF that work with crypto miners, so I am offering my services. I have tested with PURE MINER and Silent Crypto Miner by Unam Sanctam I was 100% successful and FUD with long period of no detection.

FEATURES

- Stub update at least 2 times a day
- Advanced WD bypass algorithm
- Binding with any file up to 10 Mb
- Persistence
- Loader mode
- Download mode
- Anti virtual machines
- Melt
- Mutex
- Start in stealth mode (Start up)
- Extension substitution
- Optional fake message at the start

CONDITIONS

- Only .exe files
- File transfer form: link to password-protected archive

VOUCH COPY

ONE VOUCH COPY TO BE GIVEN TO A REPUTABLE MEMBER

PRICE

\$30

Can't reply to u in DM since I need to be L33T. (yatzufn on tg)

SIM-5102439 - February 4, 2022, 8:01 am

Check Telegram bro I sent you a shit ton of messages

Thanks got the file. Works perfectly. You got yourself a customer

Palac10 - February 8, 2022, 3:31 pm

Just to clarify, let me categorically state, I don't know why certain people are acting butt hurt... I am not using any of the crypters on HF to run this service. This is my team's privately developed crypter and we can prove it if required.

GSLLL - February 10, 2022, 11:31 pm

Price ?.....

Palac10 - March 18, 2022, 3:52 pm

Now supports 32 bits too.

FUD Scantime and Runtime

Price \$35

Lyrica - March 18, 2022, 4:51 pm

Have you given out any vouch copies? Not asking for one, just like to see opinions.

Palac10 - March 18, 2022, 11:45 pm

I have 2 or 3 people currently buying crypts from me so far.

One left a "review" on the thread if you can call it that.

But I will ask anyone that buys to leave a review from now on

Willing to give ONE vouch copy to a reputable member

Sanctuary - March 19, 2022, 2:57 am

Shared stub? or is it unique per person? Should add it to the thread so people know, however I'll wait for a reputable person to vouch then probably buy from you, GLWS.

SIM-5169646 - March 21, 2022, 12:44 am

what is the point of making a crypto miner fud? I mean what can you do with a crypto miner and making it fud?

Does this mean installing the crypto miner software on computers that isn't yours and making them fud?

How does this work?

SIM-5102439 - March 21, 2022, 5:47 am

Started a contract please. Please treat with urgency

LeadPal - March 26, 2022, 4:38 pm

Glad to see you figured out how to crypt your miner completely, I would try out your service as i am still looking to be able to crypt pureminer completely.
