Thread: [\[ASSET RECOVERY\]RECOVER YOUR NFT'S --- BEAT THE ERC20 SWEEPER \[PAID SERVICE\]](#)

Hoggalove - February 4, 2022, 4:18 pm

Hello All,

I am offering a service to help you recover assets if your ERC20 wallet has been hacked and a sweeper BOT has been added.

This is a very specific request but due to the volume of people i've noticed required assistance with this. I'm willing to provide it.

All recoveries are minimum of 5000\$ and I take a cut of 20%.

How does this work ?

- Say you had a ERC20 wallet with ETHER or other funds in it and it was compromised and the hacker took all your funds and added a SWEEPER, so now everytime you send in funds, they get sent right away to the hackers address within a couple blocks by using a SWEEPER BOT. So now even if they didn't know you had an NFT or other things on there, we can make sure even with the SWEEPER BOT added to the wallet, we can still safely extract your NFT's or other tokens the hacker may not have taken.

How can I Help?

- I formulate a bundle of TX's to send in ETHER and transfer out the token or nft or whatever it is that we are recovering.

This is a very specific service offering, but of course. It's available now to those who need it on this forum.

Cheers,

HoggaLove

* IF THIS IS NOT ALLOWED PLEASE PM ME AND I CAN DELETE THIS THREAD, I SEE THIS BEING BENEFICIAL FOR THE HOPELESS AND A SERVICE THAT NEEDS TO BE PROVIDED , CAN PROVIDE PROOF OF CAPABILTIES IF REQUIRED *
