Hello dear Forum users!

We are glad to introduce you a new service allrdp.net for the sale of RDP/dedics to increase your anonymity on the network. You will be able to buy RDP at the best prices on the market, the quality, in turn, will surprise you very much. Implemented functionality for selling your servers at your prices.

allrdp.net is: We have an open registration for buyers and sellers of RDP servers

Daily updating of the assortment

Each buyer will find for himself a product of excellent quality competently sorted by country, city, IP Score, etc.

You will be able to see full information about each RDP

In our service, fully automatic balance replenishment using BitCoin and LiteCoin

Description: In automatic mode, all servers are checked for operability immediately before purchase, the probability that you will spend time and money on non-working goods is minimal.

It is possible for us to buy and sell our RDP dedics. The service is still working without commission.

There are a huge number of countries on sale (all except the CIS).

It takes 2 hours to check the purchased server.

We do not have a minimum deposit amount.
