Thread: [Selling FUD MP-40 RAT skeleton\(i can code plugins\)C#](#)

dexa - February 8, 2022, 6:09 am

MP-40 RAT

- coded in C#
- client currently have 8kB (8,192 bytes)
- i can add plugins in custom coded and fud
- you get 2 files server.exe and a client.exe
- can sell you a source(70\$).
- just skeleton is 30\$ with discord token grabber and os info.

Server picture

- you just set the port and the clients starts connecting
- jotti scan(1 av becaus3e of discord token grabber)

-i can put discord token grabber out and add new stuff in.

IF you got some special wish i cann add it in so this is just skeleton source on sale
I can make a builder for the client.exe

If interested pm me with your discord or post bellow.?
[contract=tid]Start Contract[/contract]

(Feb 8, 2022 10:05 AM)Incog Wrote: [\[CITE\]](#) does it come with a holo sight too? or maybe an extended mag?

If you are actually being serious about selling, i'd say work on your GUI skills, it's a bit lacking
I can fix them if you got bitcoin.?
Tnx for reply.

(Feb 8, 2022 10:09 AM)Incog Wrote: [\[CITE\]](#) be serious.

If you think that GUI is in sellable condition, heads up, it isnt.
Like i said it is just a skeleton.

A GUI (graphical user interface)

Im selling a source man where you just add stuff or i.
I can make you a nicer GUI for +30\$
But tnx for the tip will be nicer in new tool

ok changed the GUI a little

If anybody have an idea what to add in RAT i will just write bellow.?

I think a better option would be not to have a random fucking gun at the bottom that takes up half your screen for no apparent reason, other than that GL!
