NotKover - February 9, 2022, 6:36 am

Are you giving out any vouch copies and can you post runtime results with internet enabled on dyncheck or checkzilla using a open source or publicly sold rat/botnet stub please.

SIM-5135342 - February 9, 2022, 7:11 am

(Feb 9, 2022 07:36 AM)NotKover Wrote: [\[CITE\]](#) Are you giving out any vouch copies and can you post runtime results with internet enabled on dyncheck or checkzilla using a open source or publicly sold rat/botnet stub please.

Hi! I have provided antiscan.me (most used in this case) because doesn't redistribute results (and it's free !) It's a accurate scan and guarantee that stub remain FUD for more time!; Also, i have sold already on this forum crypter , with positive results; I have used QUASAR in the test video, in my post, because it's public / open source, and also OLD rat, so hard to crypt for most of crypter, with 0/26 result ! FUD

Thanks,

x11232x

runtime not scantime results

SIM-5135342 - February 9, 2022, 8:51 am

(Feb 9, 2022 09:49 AM)NotKover Wrote: [\[CITE\]](#) runtime not scantime results

I'll see which service I can use, and inform on it accurately before anything. For now, you can ask to people i've sold the crypter, for LIVE feedbacks to people that have bought it :)

SIM549839 - February 9, 2022, 12:44 pm

When will you guys understand that all this "extra" features simply cause a bigger detection rate.

There is nothing great in features that increase runtime detection.

NotKover - February 9, 2022, 3:27 pm

(Feb 9, 2022 09:51 AM)x11232x Wrote: [\[CITE\]](#) I'll see which service I can use, and inform on it accurately before anything. For now, you can ask to people i've sold the crypter, for LIVE feedbacks to people that have bought it :)

Use checkzilla because its cheap and way more maintained than dyncheck

SIM-5135342 - February 10, 2022, 4:36 am

(Feb 9, 2022 01:44 PM)SIM549839 Wrote: [\[CITE\]](#) When will you guys understand that all this "extra" features simply cause a bigger detection rate.

There is nothing great in features that increase runtime detection.

I think that you should understand, that most of this features (almost all) will help to your stub to not get easy reversed / dumped; So you will secure a lot more your stub. Any contract started here today;

Update :

Added another stub for the crypter (native). You can choose it if needed, instead of .NET for the supported files.

USD8559187 - February 10, 2022, 1:03 pm
