Thread: [\[\\$10-\\$30/Day\] Best SCALABLE Tasking Site -- 100% Free LEGIT Earning! \[NO INVESTMENT!\]](#)

Dehyped | ?? - February 9, 2022, 6:06 am

So over the last few months I've been doing a deep dive into sites and apps that can ACTUALLY earn you money that is worth your time. You can argue that doing simple tasks while you play games or watch YouTube is always worth your time but some of these sites are shit and pay \$0.02 per task. And a lot don't pay out at all or have ridiculously high withdrawal thresholds. Fuck that shit. We're out here grinding, we're out here hustling, we need some muhfuckin MONEY.

After scouring through DOZENS of sites and apps and spending literally HUNDREDS OF HOURS of searching I have found far and away the most consistent and reliable site that pays out for real. Minimum withdraw is only \$5, there are tons of offers -- \$0.01 per video click, \$1 or even up to \$20 for downloading apps and completing tasks. Lots of great stuff on the offer walls.

The most reliable grind here are surveys, they start at around \$0.33 per completion and can take anywhere from 9 minutes to an hour, but as you earn more points (1 point = \$0.01) you upgrade your account levels from bronze to silver to gold, etc. The higher your account level the better the surveys, tasks and offer walls pay. I made \$9 in an hour yesterday doing surveys while I played chess.

No bullshit, I use this site every day for the last 3 weeks and they have actually made me some great side money. Will it make you rich? No. But if you use this site CONSISTENTLY for the next 3-5 months you will easily be making \$300-\$1000/month if you spend 1-3 hours a day EVERY day. That is the key here guys, the earning will be slow in the beginning -- just a few dollars a day is what you're gonna be looking at if you spend 1-3 hours. However, this site is unique because it rewards you for consistency and longevity. If you keep using this every day you will hit \$10/day in the first week, and easily \$30/day in the first month.

As a bonus I'm going to throw in the best part of this method -- the exact profile to create that will NEVER kick you out of surveys and will always ensure you have a steady flow of surveys, tasks and videos available every day. This is crucial so please pay attention to it.

BONUS! I HAVE ALSO INCLUDED AN ADDITIONAL MINI-GUIDE ON HOW TO GET PAID FOR PLAYING GAMES WITH A SITE THAT HAS AMAZING OFFERWALLS AND EVEN BETTER RATES FOR SURVEYS IF YOU FOLLOW MY PRIZEREBEL GUIDE!

Check it out and remember to +rep if you liked it!

And even if it weren't, people shouldn't really complain. It's only 10 measly bytes.

I'll be giving it a shot later today when home, and will give you some serious QL and Rep if it works as promised after a week, a month and two months.

This looks legit, but I never stick it through sites like this because i always feel like i barely earn anything. i spent some bytes and I will try it out.

There seems to be more money here than a lot of survey sites -- i will be giving it a go. If i can get to \$20-30 a day for 1 to 3 hours that would be great side income.

However, this site is unique because it rewards you for consistency and longevity. If you keep using this every day you will hit \$10/day in the first week, and easily \$30/day in the first month.

As a bonus I'm going to throw in the best part of this method -- the exact profile to create that will NEVER kick you out of surveys and will always ensure you have a steady flow of surveys, tasks and videos available every day. This is crucial so please pay attention to it.

BONUS!: I HAVE ALSO INCLUDED AN ADDITIONAL MINI-GUIDE ON HOW TO GET PAID FOR PLAYING GAMES WITH A SITE THAT HAS AMAZING OFFERWALLS AND EVEN BETTER RATES FOR SURVEYS IF YOU FOLLOW MY PRIZEREBEL GUIDE!

Check it out and remember to +rep if you liked it!

(Feb 9, 2022 07:06 AM)Dehyped | ?? Wrote: [\[CITE\]](#) So over the last few months I've been doing a deep dive into sites and apps that can ACTUALLY earn you money that is worth your time. You can argue that doing simple tasks while you play games or watch YouTube is always worth your time but some of these sites are shit and pay \$0.02 per task. And a lot don't pay out at all or have ridiculously high withdrawal thresholds. Fuck that shit. We're out here grinding, we're out here hustling, we need some muhfuckin MONEY.

After scouring through DOZENS of sites and apps and spending literally HUNDREDS OF HOURS of searching I have found far and away the most consistent and reliable site that pays out for real. Minimum withdraw is only \$5, there are tons of offers -- \$0.01 per video click, \$1 or even up to \$20 for downloading apps and completing tasks. Lots of great stuff on the offer walls.

The most reliable grind here are surveys, they start at around \$0.33 per completion and can take anywhere from 9 minutes to an hour, but as you earn more points (1 point = \$0.01) you upgrade your account levels from bronze to silver to gold, etc. The higher your account level the better the surveys, tasks and offer walls pay. I made \$9 in an hour yesterday doing surveys while I played chess.

No bullshit, I use this site every day for the last 3 weeks and they have actually made me some great side money. Will it make you rich? No. But if you use this site CONSISTENTLY for the next 3-5 months you will easily be making \$300-\$1000/month if you spend 1-3 hours a day EVERY day. That is the key here guys, the earning will be slow in the beginning -- just a few dollars a day is what you're gonna be looking at if you spend 1-3 hours. However, this site is unique because it rewards you for consistency and longevity. If you keep using this every day you will hit \$10/day in the first week, and easily \$30/day in the first month.
