Thread: [Download XenForo all recent verions + most previous](#)

criosphinx - February 9, 2022, 1:36 pm

Download any of the recent 2.x verions downloaded straight from XenForo account page and uploaded Resources. Addons also available to download

[3de.uk/index.php?resources/categories/xenforo-forum-software.10/](#)

I could swear this is a fake website made to spread backdoored Xenforo or something.

It seems new, has already 400+ registered users while it's clearly inactive and not referenced, all messages are posted at a similar time frame and they make no sense -- looks like bots talking to each other. Things don't add up

Yes and it's quite expensive, \$100/month for standard plan.
