Thread: [Do these money making ebooks actually work?](#)

FinanceMan901 - February 10, 2022, 12:11 pm

I see vouches, tons of replies, etc but they actually work? Can I have some honest opinions here

Artisan - February 10, 2022, 12:54 pm

They might if by "do they work", you mean can they give you an idea about what niche to target or what platform to use but it is you who has to put in some effort. Most of the information available in such ebooks are available online. You just gotta know what to search for.

Zexi - February 10, 2022, 1:37 pm

The methods in the E-books might work, but won't make you nowhere near the amount of money advertised.

No one in their right mind earning 500\$ a day with a certain method would sell it for 30 bucks.

(Feb 10, 2022 02:48 PM)OrgX Wrote: [\[CITE\]](#) Actually I disagree.. These ebooks that claim you can make 500\$ a day are actually often correct, but its not autopilot. You will make 500\$ a day if you take that "method" serious and ACTUALLY put in QUALITY effort. Too bad most people buying these are lazy people looking to make that 500\$ with no work. With work I am talking 5-7 hours A DAY for months chasing the same niche.

That might be the case, but they are not advertised as 7 hours of work a day now, are they?

Always remember if something is too good to be true it usually is. Making money requires hard work or a large initial investment 9times out of 10.

ceegee - February 11, 2022, 3:39 pm

If it seems to good to be true, it probably is.

personally i would advise not to waste your time

Works, for the ebooks sellers.

You will get a method to make money but nothing that will make you rich, otherwise why they would sell an "AMAZING UNSATURATED MONEY MAKER EBOOK 100% AUTOMATIC"

A DAY for months chasing the same niche.

Then you are wrong. \$500 a day is equivalent to a salary of \$130k/yr, assuming you work 5 days a week and have a 2 week holiday.

\$500/day for 7 hours of work is \$71/hour.

Unless the ebooks tell you to get an education and then a job, they are not 'actually often correct'. Their time is worth more than the amount they spend writing and selling an ebook on a forum like this.

Here's a money making method for free: spend two years teaching yourself to code from no base knowledge and you can get hired making 6 digits.

No they do not. Do not buy them.

Shiny Gengar - February 14, 2022, 8:32 pm

I'm sure some work but there's a ton of garbage that people get their friends to vouch for I'm sure.

Bluffer - February 14, 2022, 8:40 pm

Most eBooks are not going to make you what they claim. Most sellers of eBooks are making money off selling them more than whatever their methods are.

That being said, without limiting it to eBooks, there are certainly methods for sale on this forum that are legitimate and 100% being what they claim to be. They are just few and far between the illegitimate ones.

Flyrect - February 14, 2022, 8:58 pm

If they work, why would they sell ?

The answer is no

Stellen Sie TT - February 17, 2022, 7:33 am

I don't think they truly work.

Chiinx - February 18, 2022, 9:13 am

My first ebook here was an ebook explaining how to make ebooks and sell them on here. Lmaooo never bought another again.

Vader - February 19, 2022, 2:22 am

Yep check out my most recent thread in the premium sellers section

VNT - February 25, 2022, 12:59 pm

The method alone wont make you 500/day but it give you enough to rethink and make your own method that work.. Bought one surely i didnt make any money but made me save few thousands on car parts ???

I wonder who was the seller because that's just low... ?

Cap - February 27, 2022, 7:38 pm

Majority of ebooks being sold won't make you the money they say they will. However, some can and will make you money. If you dig through enough crap, you may find oil.

MrRossMan - February 28, 2022, 8:26 am

its all a scam. dont buy methods from anyone

Milk - March 5, 2022, 9:41 pm

Fuck no, if its a good method they will use it themself

Sholi - March 6, 2022, 2:54 pm

You won't find any oil in \$25 eBooks. There are only a limited amount of valuable money makers here. Not easy to find them, and when you do it's hard to trust them.

Vader - March 7, 2022, 5:07 pm

Couple trains of thought:

Why would somebody sell you a money making method if they could do it themselves?

- If they are already making money then what do they gain from selling the info to other people, why not just run the method on your own and tell no one? & for such a low price no less.

- Unless they are selling it for high ticket or low promises it is most likely not going to be as successful as it claims.

But this applies to a lot of commerce universally, not just to people selling you methods online.

IMO. I would only take an ebook that promises honest numbers for an honest price. I have seen people post 5k/month selling for \$1,000. Pretty fair in my opinion. But if it is something like \$1k a day for \$30. Don't expect to make \$1k a day. Normally on here you get what you pay for.

Make sure to follow up with people extensively and do your research before making a big purchase. Could mean the difference between you making a ton of money vs losing \$700 on a dumb method or getting scammed.

DUDE WTF did you do to get neg repped like that?!

J4mmy - March 8, 2022, 12:15 am

The basic concept mainly does work yes which they provide. eBooks are just simplified business ideas. If you treat the methods as business, you do have a chance to succeed with any method basically. What you must do though is invest time into it. That is the most prized investment you must put into them.

This is a bit outdated nowadays but the basic concept still stands:

Good luck making money!

Biochef - March 8, 2022, 1:51 pm

Some e-books will actually tell you that you need to make u-books yourself to make money. Lol, says enough, right.

The only person making money here is the e-book seller. Don't believe what anyone says, 100% of the e-books sold are trash. E-books are actually one of the biggest scams on hackforums for a long time, yet, still allowed. It doesn't matter what is inside, as long as you deliver. Don't get trapped by these VIP packages etc, you pay more to actually get a chance for a refund if it doesn't work. I have

never seen anyone giving refunds on e-books.

You should do so, because many people still buy that bullshit daily. Because they believe if it was really a scam it wouldn't be allowed to sell, which is not true. They even pay to advertise their scams on here lol, and make tons of victims daily.

Nice pyramid scheme, indeed works. There is at least 10 years of proof just check the marketplace section, and the sales are only growing.
