Better get cracking on it.

Doubt anybody going to do this... and if they do, it will not be cheap given the time demand.

I have no issue paying lol. I wish everyone would stop being so quick to assume I want the cheapest provider possible. I'll get cracking on sending that money to whoever wants to make some easy change.

It is going to be difficult to get someone to do this was the point. In the case that you do find someone, be ready to pay a lot. Whether or not you can pay for it, I never questioned. Go take a step outside and get some air.

Good luck on cracking on the money sending.

It has been a couple of years since I have done supply chain management, but I may still have a few model sheets in excel laying around to recall these topics.

Send me a PM with what you need done. No guarantees, but I'll at least take a look if I can help.
