Thread: [Web Developer needed Simple Website.](#)

SIM-3281006 - February 15, 2022, 10:01 pm

I need someone to build a very simple website for me and I have the sample.

I want serious minded and not scammers who will ask for upfront payment and run away after receiving payment.

Maybe start by elaborating on your post then?

What kind of website, what do you need, how quickly do you need it and what CRM you're using.

What kind of website, what do you need, how quickly do you need it and what CRM you're using. If he needs a CRM at all. We need details @OP. It's frustratingly short of details!

can you do the job?

Impossible to answer that question without details. Can I make a website? Sure. Can I make a static website? Sure. Can I make a dynamic website? Sure. Can I make a webshop? Sure. Do you need scaling, do you need a custom design? Do you need a custom API? Do you need payment processor integration? Do you need features x, y and z?

But again, depending on what kind of website, how big it is, and whether or not what you're asking is legal, it will cost more, or less or I might refuse (if it's illegal).

I am available to design any kind of website for you.

See example of my work: <https://naisend.com> an online mailing app.

I build very complex and difficult sites quickly.

Contact me let's discuss price (cheap) and features you want.
