Thread: [In need of emergency money and or itinerary for insurance/priceline fax service](#)

Guyasssblaster - February 18, 2022, 8:18 am

I am curious on if anyone has accessible or can teach me how to access a interface that would have the templates for rental agreements of vehicles or the fax documents used by priceline or whatever to obtain rentals/new vehicles/hotel rooms etc as well as possible hacks for new casino slots etc I will not be using them to commit crimes I am just curious on the processing involved in order to either be proven right when I tell my friend it is possible or wrong and I want to understand the reasons it is or isnt possible as well as any true victimless identity assumption being possible without stealing a live humans identity be quse we are having a bet on whos right on if a story we have heard was even possible and emergency money j need could be at hand if I win. He swears to assume a victimless identity and through what appears to be flawless papers work spontaneous generation of a car and casino wins ad well as hotel stays etc is not possible and I beg to differ but I don't know the logistics behind it and I'd like to have examples of those documents so that if he is dumb enough to try which he just might be it can be test ran for 100% legit proof which he will settle for nothing less.

You definitely posted this the wrong place and not even sure you would be allowed to post such things on here, please read [Help Docs](#) and stop posting stuff like this in the lounge.

Shiny Gengar - February 18, 2022, 8:22 am

What the fuck did I just read?

OP you're clearly asking for fraudulent stuff, your run-on paragraph sentences aren't doing anything other than making me question whether or not you're overdosing on adderall.

Guyasssblaster - February 18, 2022, 8:31 am

My bad he posted it right after I posted my other posts lol I didn't know that's what my friend was doing on my phone sorry I tried to delete but don't know how
