## Turbo Generator

Quickly and easily generate a cryptocurrency address right here in your web browser without any downloads or payment information! With this tool you can quickly generate a custom bitcoin wallet address, and many more! Use this for your bitcoin wallet.

## Why Split Key?

Split Key guarantees that the keys generated are secure on your end even if our website is compromised, or the website transmission is compromised. This is highly recommended, but it is optional.

## Is This Secure?

Yes if you use a split key then even if our website is compromised, or the transmission is compromised there is no way that your private keys are revealed.

## Need Multiple Addresses?

Contact us and we can generate thousands of addresses for you using your secure split-key.

## Don't see your coin?

Contact us and we might be able to add that coin to our generator! We only add fully open source coins to our system.
