LIFETIME BASIC MEMBERSHIP = \$20.00 [contract=tid]Start Contract[/contract] LIFETIME PREMIUM MEMBERSHIP = \$1500.00 *Notice: Can be paid in two installments of \$750.00 each (second one has to be paid within 10 days) [contract=tid]Start Contract[/contract]

Business models (premium) - We tried many things, from freelancing and print-on-demand to Amazon FBA and dropshipping. Some (including me) even run their own companies (digital marketing agency in my case). Once you join Voxum Premium, you will be able to choose from wide variety of business models that worked for us, pick one that you like the most and we will guide you through every step of it. Let's say you choose "building your own clothing brand", for that you need an idea, website, social media, connections with influencers and many other things. We will cover most of it, you will learn through the process and continue doing business on your own.

Professional Mentorship (premium) - Starting a business is great, but starting it while being mentored by a professional is even better! After deciding which business models suits you best, one of our mentors will help you through every step of setting up the business, from teaching you the basics to earning your first dollar bills. Our whole team is at your disposal, from web developers to digital marketers and designers, they will set up your website, social media profiles and create anything that's needed to kickstart your business. There is no expiry date on this, once you're in, you're in for good!

Private group (basic) - Join the private group of like-minded individuals, exchange ideas, help and learn from each other. There must be something you can share with others but also something you can learn from others.

Ebooks & courses (basic) - Once you're in, you have access to over 2 TB of courses, ebooks and different tutorials.

Digital assets (basic) - We live in a digital world. Digital assets are something that can help you build stuff. You need a social media post template, website, newsletter or any other type of template? We got you! Search through our database of digital assets and download them with one click. These are all premium assets that would cost you a lot if purchased separately or through different monthly subscriptions.

Chat with professionals (basic) - These same mentors mentioned above maybe won't mentor you in a free plan, but you can always reach out to them and ask them any questions regarding business strategies, different monetization techniques and other interesting topics.

Financing & Airdrops (premium) - We want to give back to community by hosting random airdrops and giving funding to most unique ideas and hard working individuals. Every month expect a random airdrop of \$100, \$300 or even \$500. When it comes to financing, if there is a member that is struggling financially to start up his idea or just needs a small "boost", we will help them by investing into their business. We do not expect anything in return!

Guest speakers (basic) - From time to time we will have a guest speaker that will share their point of view and journey through the world of making money online. You will be able to learn from them, ask them any questions and even access their personal monetization techniques, tips and tricks.

HF Group (premium) - One of the goals on our roadmap is to establish a private HF group. With this group we want to bring the "real monetization methods (business models)" to wider audience of forum members. There are way too many get rich quick schemes that are nothing but lies or they require you to do illegal activity which we are against at Voxum Group. We want to educate the members about how real business looks like, that it actually requires hard work and dedication but in the ends gives the most satisfaction.

Daily news, tips & tricks (basic) - Every day our team will be posting interesting articles and tips about business, cryptocurrency, marketing and monetization in general. Have everything in one place without doing your own research.

(Mar 8, 2022 02:52 AM)H3rodot Wrote: [\[CITE\]](#) I joined in premium group 15 days ago and I want to put my review here:

Introduction to group

After i joined I talked to three guys from this group on discord. They appointed one to me and he is my mentor now. He showed me around, sent me a lot of material to read and study and since then we did many sessions in voice chat. They explained me how this all works, listened to me and my goals. After that they started working on helping me grow my business, developers team build a website for my business, marketing guys make promotions and advertised everything. I am still having many lessons, we meet every 2 days on discord and if i have questions they always help me.

Developers

So they have this team of freelancers working for the group, i think that is other company OP owns, his team will build everything that you need. For me, they created this plan with all goals and descriptions for every goal and developers started building stuff. It was about 8 days after and everything was built for me. Best part is that they know what needs to be done, i dont need to tell them any.

Lessons and learning

This part is very well, first they give you a lot of ebooks and videos based on business you are doing. Some ebooks are wrote by them, some are from other business that you can find online. In beginning we meet every day in private voice chat and it is like in school or college I sit and listen and he explain me everything, i can write things down and he shows you that on real example so you learn easy. Now we meet every two days and he keeps explaining what is left, sometimes i ask questions and he answers quick.

Profits

Because this is real business and not some fast money methods, it will take time. Im happy with what i get so far, i learned more and they did more than anyone else could. We are close to getting me first clients, i am working hard, they work hard and i will make money very soon. When i get first profits i will update here.

Final words, i recommend this group to everyone. This is first legit thing i find online and i trust them 10000%.

Besides earnings the team of voxum group is amazing! Guys are professional, they teach you well and I'm learning every day. This is really something you should invest money in because it is worth it.

Just a quick update: All four of our premium clients are having their businesses up and running, the foundation is set and now we're ready to work hard on getting the first results. As the time goes, I will be posting case studies on each and one of their projects so that you can better understand how we work and what we focus on. Soon we should expect the first earnings and I will make sure those who are registered on the forum, leave a review for others to see.

Since there is only one premium spot left, I'm open to negotiate the price if someone is interested. We need five so that we close this first sign up period and focus solely on helping clients and growing their businesses.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
