Thread: [Ewhore method how I made 600\\$ my first week](#)

ZeusOfOlympus - February 19, 2022, 10:26 am

This probably isn't anything you guys haven't done before so I'm gonna give a quick tutorial on how I made 600\$ ewhoring on Snapchat.

The key to this is simple you just need to find a chick who hasn't been over saturated. That's the hardest part really. How do you do that? How I found mine is hanging out in weird kik gc where dudes trade links to Dropbox and mega. Don't get me wrong they're some fucked up gc a lot of pedos. I mean a lot. But every now and then someone will share a link that's all of the same chick and then you're set. But for this to be really effective you need two chicks.

So you make her Snapchat make it like she's a real girl the Bitmoji and everything. Post a few teasers use the sticker method to get at least one live snap (I didn't find out about the sticker method until after my first week) and then promote the fuck out of yourself. Make a snap saying you'll give whoever shares your snap a free pic.

Now you have to chat them up but you can tell who is serious or not. The ones with hi or hey don't waste your time unless you're bored asf. Heres where it gets a little grimey you tell these dudes you just started doing this so you're selling a premium Snapchat and a free video chat to all my new members. I've found anywhere from 10-20\$ works. (I actually picked up a promoter for one of my ewhores but i had to put her down and she was only goin for a weekend. I would wake up and the promoter signed people up to my account for 30\$ 20% of which I gave back to him lol it was nice but too many moving parts. The plan was to find the guys in my premium who I could squeeze for more and more money.) but I digress...

So now you have them waning the video chat, make them pay you through cashapp which is setup with your pic and then make some shit up, your mom just came home I'm sorry daddy brb k? Eventually they stop messaging you. So then after a few days you go promote your new chick on your snap which should have a decent viewership by now switch over to that account and focus on the people who paid. If they bring up the other chick don't speak of Ill of her even if they tell you what happened. What I've been saying is oh yea ldk ik I saw her video chatting and it got me so turned on that i decided to do it hehe. It works. And when they ask for the premium tell them again you just started so you're working on setting it up but here is a video or two until I get it ready.

That's pretty much it. As for promotions that's probably the second most important thing after a quality picture pack. I've found pornhub works and instagram does not. Your results may vary. Sorry I'm not gonna give out my main app.

How do u promote on pornhub?

Through comments or uploaded vid or else

tigmo - February 20, 2022, 2:05 am

so basically what you're saying here is: offer video chat to customers and then after they send you the money, you tell them ur busy and hope they don't ask for the money back AKA ghost them AKA scam them. that is a shitty thing to do. very shitty you know? you'll never get to the amount you want from people if you constantly keep on scamming them for 10-20 bucks and hope that they will say

'ok we don't have to video chat i'll send any amount to you'. think about it twice next time you're doing it because you're destroying the business for yourself AND for every other e-whore.

no dude, you have 2 accounts right, then account 1 and 2 will promote each other.

account 1 will do shitty stuff

then disappear

then acc 2 will call out acc 1 and make more money and gain trust because it called out its scammer freind

this doesn't ruin ewhore , it legitimizes it by showing theres other "girls " who call out this behaviour

when i use this method no one even asks to meet acc 2 because shes proven herself by calling out someone else.

how do you not get that

still, offering your services and then dipping on guys like that? also... a scam girl will promote a 'real girl' and you expect the 'customer' to believe the other girl that has been promoted through a scam one?

i don't even get how would you do your part of the deal even WITH the other girl if you can't actually do video chat, so you are basically scamming them with both girls. or you maybe have a method with which you can fake the whole video chat thing? even if you do, it's basically still 'scamming'.

you do you, i'm not trying to tell you what to do or what not to do, but, you're ruining this for both

YOU and other e-whores. just think about it. hope you get what i'm trying to say here
