Bankrupt - February 22, 2022, 12:43 am

pretty straight forward thread here, no time wasters.

Value 3,500\$ + transfer fee.

Maxorg - February 22, 2022, 7:51 am

Definitely a nice deal. Would have grabbed it myself if I had the spare cash.

Good luck with the sale OP.

question what happens once the insiders is sold? will we as group members still be apart of the group or be transferred to the buyer?

It'd be up to the new owner what they wanted to do. Which would likely result in everyone being removed to reset the whole group.

I was willing to financially tolerate entertaining my stupidity, but only to extent. I can't seem to justify spending \$3k+ on a group without a plan of execution.

Well, that's not entirely true... what I want to do with a group requires a ton of preparation... and until that prep work is done (or I see myself take some serious initiative on it), I am not going to purchase a group. I do not want to be one of the many other owners that say they're going to do a lot with a group, then 1 month later, is inactive. Want to be one that actual has useful substance within the sub forums: written DevSecOps guides with my own demonstrations via videos and images. (inspired by xadamxk)

I know I could flip it or do buy-ins, but that doesn't particularly interest me atm.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
