Thread: [Can someone draw Blacklisted a picture?](#)

neightworks. - February 22, 2022, 3:09 pm

This isn't posted in graphics because we all know none of you losers have enough talent to be called a graphics bruv, which is precisely the low quality shit I'm looking for.

Please include the three leaders with the captions

[Lynx](#) "The Cat"

[Demize](#) "The Cat Wrangler"

[neightworks.](#) "The Retard"

And then in the background you can pick from our wide range of goons like [mention=5037217] "The Criminal" or [wtf](#) "Grey Jesus".

Let's see what ya got HF Lounge.

([wtf](#) is currently banned so he does not show)

This is the kind of shit that drives blacklisted to be the group we are.

Like draw-draw, as in pencil and paper? Forgive me but the parameters aren't quite detailed enough to where my understanding is satisfactory enough...

It's been a bit since I've drawn something but I'm fairly talented, just haven't had inspiration for a while, too busy with work and life and adulting, rinse wash and repeat.

The parameters are clear and the examples already posted are flawless.
