Thread: [Looking to Hire Full Stack Web Developer \[PAID\]](#)

harveyspect123 - February 22, 2022, 9:55 pm

We are looking for a Senior Web Developer with experience in Front and Back end Website Development.

Must have Expertise in REACT/PHP/ HTML/CSS/JAVASCRIPT/. You will be mainly required to do Frontend Website Development, Design, Optimization along with a few Backend Things

Description: You will be required to mainly work on Crypto Dapps, Exchanges, Nft Marketplaces, Game websites and need to COPY/CLONE the website from scratch with minor changes according to our requirements. Not the entire website will be copied but 3-4 pages. Most websites are in [REACT], so you can clone the websites and make some changes to the code and design as per our requirements.

For your help, we have a few similar websites ready so you can understand how to integrate the Backend with Frontend and how the websites are being made. We have the website files/source code for better understanding.

We are only looking for people who can do the aforementioned things, Contact in PM or TG.
