Thread: [MetaMask wallet Stealer is now detected by ESET can anyone help.](#)

Steven12 - February 24, 2022, 1:12 pm

Hello recently i have purchased stealer from LChange.one

And today i have updated me server/client and now .exe file is detected by ESET, but its working with windows defender and avira.

IF anyone can help me to bypass ESET i can pay up to 1000 euros XMR,BTC

NotSecure - February 24, 2022, 1:48 pm

I am going to send you a message. I can potentially help you out here.

Edit:

I just sent you a Private Message. Check it when you get a chance.

I honestly do not think that discussion is allowed here if I'm correct

PixelRain - February 28, 2022, 9:26 pm

I have experience bypassing ESET, but it depends on the detection being thrown by ESET. Can you link to the scan? Thanks.

mose3c - March 1, 2022, 5:09 am

PM and send you'r exe to test with my crypter
