Thread: [Add an Arts and Literature section](#)

Handsome - February 24, 2022, 2:55 pm

I was thinking a section added to personal life or lounge where we can discuss things like artwork, literature, poetry, etc would be nice. We've got a GFX section for digital art, but I would like to see physical art, crafts, people's poetry, short stories, etc.

Was already suggested a month ago and was denied.

Really, really, I think it'd be better off to just rename the Movies, TV and Videos section so that there's a clear location for threads like that. Maybe make it 'Film and Literature' or something. But what do I know?

Maybe not a bad idea. I'll think on that.

I tried searching before posting. Oops. Yeah, I think that is a great suggestion too.
