jmark7 - February 25, 2022, 12:35 pm

Interesting thread, Posting here to get Update on this.

The Business Point - February 25, 2022, 3:01 pm

Lets talk about Metatrader

What is Meta Trader ?

This is a platform that we use (METATRADER4). It can be installed on any of your devices through the apps store or playstore.

You can open an account through a broker then sign in at MT4

HOW TO COUNT PIPS

This is how pips is counting. usually im always said Tp1 done 30pips, that means the price already run 300 points from the entry point.

Why we must to know how to count pips?

:atom_symbol:To place TP, SL & BE points.

MARKET MOVEMENT

There are two market movements which are BULLISH AND BEARISH

BULLISH means that the market is moving upwards or the common term is UPTREND. In BULLISH market trader will look for buy at lower prices and sell at higher prices to get profits.

Positions for BULLISH market is BUY

BEARISH means that the market is moving downwards the common term is DOWNTREND. In BEARISH markets trader will look for sell at higher prices and close at lower prices to get profits.

Positions for BEARISH market is SELL
