Thread: [50 USD EWHORE EBOOK: SERIOUS MONEY MAKING 200+ PER DAY](#)

PeterGriffin - February 25, 2022, 2:11 pm

Hey guys, It's peter or formerly known as S35T. I couldn't get my old account back so I made this one. Anyways, lets get to the main point, I decided to make another ebook. This one is for 50 dollars. It's a pretty simple but not over easy method, you kind of need to put in some work of course but eventually it's autopilot money in your pocket BABY! I gave this to a couple people for free for testing (yes i do this with new methods and ebooks for those who don't know me from before) and its was pretty much 200+ per day if done right. This is an untapped market right now so I recommend you get your hands on it now. I'll take bitcoin and paypal depending on if I can trust you not to chargeback or not. [warn]
