Thread: [I need to join a group](#)

GD ya'll I've been here for about a month now, tryna join any group and it says I don't meet the requirements. what can I do to join?

Depending on what kind of group you are joining will determine the requirements.

If you want to upgrade, you need to purchase it.

If you are wanting to join an Official HF Group it's quite challenging for a non-established user.

Be advised that there are Unofficial groups you could join.

There were some group I accepting new members with buy in options I guess but if I were you first thing to do is show to the community that you are a HQ member.

Be an active member, communicate with others and try to contribute in any way you can hoping one day you will have an invitation to join a group for free.

The easiest group for you to join right now is Greyusers.

To do this, just open a new thread in the Suggestions & Ideas sub forum asking for your account to be moved to Grey
