This is supposed to be in the lounge instead of the introduction section.

As for my favorite section well it's the lounge and coding sections of the forum

I lurk a lot in the lounge and crypto currency section.

Hope you enjoy it here, read the [Help Docs](#) if you have any questions and get familiar with the contract system.

If you have any questions regarding anything, you can always contact me.

Tbh the member contests section can be pretty fun even if you win or lose.

Probably The Marketplace - one of the sections that kept me hooked on HF.

My favorite is Lounge room and Deal Dispute

So far the lounge :)

I enjoy straddling the marketplace, graphic sections and beginner hacking sections when I can as I plan to engage more in these areas over the coming weeks/months

I like the currency exchange ones as there comes good deals once in awhile.

Also really fond of most subs in the marketplace as it's always fun to see what new services are being offered.
