Thread: [\[EXCEL\] Data Management \(data cleaning, record linkage, creating reports, etc...\)](#)

Kriptik - February 27, 2022, 2:55 pm

Hi guys,

I have years of experience as a data executive/data entry and I would like to offer my services to this community (whoever needs it).

I enjoy working with data and I love the job I do every day of the week.

So if you require a task to be done within Excel that requires a lot of time, you can hire me for the job for a fair price.

This can be a long term project or a one time project, the prices depend on what kind of project it is.

If you need me to work on a long term project I would charge \$15/hour, however if it is a one time project we will need to discuss about the details (size of the data and complexity of the task) so we can determine a fixed price and set a deadline.

For long term project I can dedicate 4 hours a day (after I'm done with my full time job).

Payment will only be accepted with cryptocurrencies (Bitcoin/Litecoin)

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
