We've never spoken. How could we? He doesn't contribute in any of the coding threads.

I remember jcole had an issue with another member due to solicitation of popularity?

Seems like this award is an automated one just like the Hackuman Egg.

Congratulations nonetheless. You worked on it.

Oh right, it was the kr0n0s guy.

At least he talked to you before you got the ignore.

I got blocked and negative rep before we even interacted; an odd bloke, that's for sure.

Apparently he's got beef with the Warriors, probably thinks we shot Cyrus.

Edit: I quoted the wrong post, sorry tigma
