Thread: [Upgraded to UB3R!](#)

r3byte - March 2, 2022, 3:59 am

Around a week ago I upgraded to L33T and received plenty of positive support and replies from you all.

With that, and as it was the 1st (yesterday) I noticed I was eligible for the UB3R Upgraded and decided to go for it :)

I'm loving connecting with you all here and already I've spoke to some amazing people. I think the extra level was perfect timing as I plan to publish some helpful tuts, resources and list some items within the marketplace in the upcoming months.

so yeah... I'm now UB3R :D - Thanks all for the love <3

Much appreciated. I look forward to connecting with more of you ?

Glad to see another member take the step and upgrade themselves!

It certainly feels good doesn't it, the blue is a nice colour and shade, makes you stand out a bit more IMO.

Lots of little benefits you don't really notice until you take a look around too, but definitely worth it. Hope to see you around even more!

Congratulation! How's the view up there?

If ever I got some cash today, I will only need to be l33t, 50 popularity, and be registered for 60 days.

[r3byte](#) , my friend! This is terrific news! I don't know if I have congratulated you yet, but you are an amazing user and I am very glad that you have acquired the rank of UB3R! #MotleyCrue

If remember when you had to apply and if you got denied you had to wait a month and after 2-3 times of being denied, you'd be blacklisted from applying.

Congratulations my dude, I sure as hell remember when I received my Ub3r.
