This user scammed me out of \$1,000 Bitcoin for a build of a Silent Excel. After sending him the \$1,000 he immediately deleted his Telegram, and edited his thread to closed, and also closed his other threads.

Well he joined 2 months ago and had only 7 B ratings. You should have known better before sending someone like that 1k. Sorry for your loss. Use a middleman next time.

Is the reason his Infinity Crypter thread was closed as well?

I assume it was an exit-scam

OP: Never trust anyone on HF that denies a guarantor/middleman/escrow. No legitimate seller will turn that offer down.
